

## **Pekka Halme:**

Pekka Halme is presently Development Director at the National Land Survey of Finland. He graduated in Engineering (surveying and mapping) in January 1984 at that Helsinki University of Technology. In 2006 he obtained his MBA degree at the Helsinki School of Economics.

He started his career as a cadastral surveyor at the National Land Survey and held various positions over the years as Survey Office Director, Chief Engineer (cadastral activities) in the Central Administration, Survey Counselor in the Ministry of Agriculture and Forestry and at present Development Director.

He has represented NLS in various international organisations including FIG, EuroGeographics and United Nation's Working Party on Land Administration. At home, Mr. Pekka chaired the NLS EFQM Finnish Quality Prize Contest in 2009 and strategy development. He has also been the Chair of the regional surveyors' associations in Turku and Helsinki area as well as President of the Finnish Association of Geodetic and Land Surveyors or Suomen Maanmittausinsinöörien Liitto MIL ry since 2009.
